4th Murfatlar Thematic Tourney for Proof Games
# WCCC Rhodes 2021

At RIFACE 2016 (the annual meeting of French composers) a retro tourney was held, in which the requested theme was the Vertical cylinder.

At Murfatlar TT4, a vertical cylinder is also required, but it is mandatory to be combined with an additional fairy condition but no fairy units.

Theme: Proof Games in which Vertical Cylinder condition must be presented. The authors should add another fairy condition, but not fairy pieces.

Definition of Vertical Cylinder: Chessboard on which columns 'a' and 'h' are adjacent.

Examples:

1) A. Buchanan
Phenix 310-311/2020

15+16   SPG
Vertical Cylindre

1.d4 Sf6 2.Bh6 Rg8 3.e3 Rah8 4.Ba6 Sxa6 5.Sf3 Rb8 6.0-0 Rba8 7.Se1 Sb8 8.Qa6 Rgh8 9.f3 Sg8 10.Kf2

With this condition, it is possible to waste time while keeping the pieces in the original position.

Not thematic for TT4 as there is no other fairy condition.

2) P. Răican
Phenix 306-307/2020

16+16   PG8.5
